Section 68.4(a) of the Commission's Rules)	WT Docket No. 01-309
Governing Hearing Aid-Compatible Telephones)	RM-8658

Hearing Aid Compatibility Report

CTC Telecom, Inc. ("Reporter"), a digital wireless service provider, pursuant to the Federal Communications Commission's ("Commission" or "FCC") *Order* in WT Docket No. 07-309, FCC 03-168, 29 CR 1299 (August 14, 2003), hereby files a report concerning the availability of digital phones for the hearing impaired. This report does not address the reporting requirements of the *Order* which are properly addressed by handset manufacturers who are in the best position to report about their own activities.

I. Carrier Information

Reporter is a small Commercial Mobile Radio Services carrier that provides service in rural Idaho. Reporter has not received a request for a HAC handset.

II. Handset Discussion

Reporter has researched information for various manufacturers including Motorola, Nokia, LG, and Kyocera regarding HAC-compliant handsets. Since the last report was submitted, Reporter, in compliance with 47 C.F.R. § 20.19(c)(2)(i)(A), distributes at least 2 HAC-compliant models of handsets for use by persons with a hearing disability; the HAC-compliant handsets are available for consumer testing prior to purchase. Reporters

distribute Kyocera and Motorola handsets. The following models are the ones which are HAC-compliant: Kyocera KX9B/C, KX9a, and KX5 and the Motorola V262 and V710.

III. Hearing Aid Compatible Handset Labeling/Insert Requirement

The HAC-compliant phones which are distributed by Reporter contain an information sheet or instruction manual which describes the HAC capabilities of the handsets. Each retail location has live working handsets on display for customer evaluation. The handset boxes are not on display and they do not have any HAC ratings listed on the box. We await the manufacturers to supply us with appropriate notification stickers and/or boxes with preprinted information.

IV. Outreach Efforts & Interoperability

Reporter has tested the HAC-compliant handsets which are distributed by it and they work well throughout Reporter's service area. Reporter makes reasonably available to disabled subscribers and disabled potential subscribers of HAC-compliant, via the retail handset distribution facility, current technical and anecdotal information regarding the hearing aid compatibility of specific wireless handsets including both HAC-compliant and non-HAC-compliant handsets.
